The tech inspection is the responsibility of the driver and is verified by the AROC tech inspector. For liability purposes AROC event organizers are not responsible for car safety. The tech inspection should be completed by an experienced mechanic or self teched by the driver. The car's owner understands that they are solely responsible for the car's safe operating condition. Some items listed above may require inspection by an authorized independent shop. Use your discretion wisely. AROC inspectors perform a basic safety inspection and checks the helmet date code. (Snell SA2010 or later)
